*¹ In the module group Specializations, two specializations out of five are to be chosen.

*² Modules of the elective compulsory area of the module group Research Papers, one of which must be chosen depending on the chosen specialization according to § 26 paragraph 3 Examination Regulations.

*³ From the module group Supplements, modules amounting to 30 credit points must be selected from the listed elective modules. A maximum of 10 credit points can be selected from the area of Foreign Language Communication and a maximum of 5 credit points from the area of Additional General Qualification.

*⁴ The module cannot be taken if it has already been selected in the module group Specializations.

*⁵ The module takes place irregularly, at least once every three academic years according to the module description.

*⁶ The language module(s) is/are chosen according to the student's previous knowledge. Further language modules based on this can be taken in the following semesters (summer and winter semesters) accordingly (see Study Regulations Annex 1: Module Descriptions).

*⁷ At least 5 credits of the student's choice from the "Additional General Qualifications for Transportation Economists" course.

*⁸ The module lasts one to two semesters depending on the student's choice.
