

Call for Papers

3rd AI in Finance Conference

Focus: Financial Decision Making
September 17-18, 2026

This year's 3rd AI in Finance Conference will take place at TUD Dresden University of Technology. We invite submissions from researchers in economics, finance, and information systems. The workshop offers scholars the opportunity to present research on a broad range of topics at the intersection of artificial intelligence and finance, with particular emphasis on financial decision making, and to receive feedback from fellow researchers. We are also pleased to welcome Alejandro Lopez-Lira (University of Florida) as this year's keynote speaker.

The conference will include a Workshop for PhD students and postdoctoral researchers on September 17. The main conference will take place on September 18 and will also feature real-world applications presented by practitioners from the financial industry. Further information is available on the conference website: <https://tud.link/m98qxr>

Submission details

Please send your paper or extended abstract to aifinance@tu-dresden.de by **July 15, 2026**.

Registration details

The workshop fee is 340 EUR and covers meals, coffee breaks, and the conference dinner on September 18. Early-bird discounts are available until August 15, 2026. Scholars from low-income countries and PhD students presenting a single-author paper receive a 50% discount.
