

Preparation for supervision meetings

At the time of the supervision meeting and writing thesis, students should be able to answer questions like (one-page document should be informative about these issues):

- What is your topic?
- What is the **precise** question you are working on?
- (Why is this question interesting?)
- How does the planned outline of your thesis look like?
What are the contents that you will cover in the respective sections?
- What is the relevant literature that you will consider for your thesis? (provide list of references!)
- Which methods are used in the literature to address the research question?
- What is the main message of the literature you have worked on?
