

Bachelor's degree program in International Relations

Modules for Exchange Students

(As of September 8, 2026)

1. Core subject: International Politics	4
Aktuelle Themen der Internationalen Politik	4
Außenpolitikanalyse	5
Einführung in die Internationalen Beziehungen.....	6
Einführung in die Methoden der Empirischen Sozialforschung.....	7
Einführung in die Politische Theorie	8
Einführung in die Politischen Systeme.....	9
Geschichte, Theorie und aktuelle Fragen der Politik Europas.....	10
Internationale Organisationen.....	11
2. Core subject: International Economics	12
Aktuelle Fragestellungen der Geldpolitik.....	12
Analysis im wirtschaftswissenschaftlichen Kontext.....	13
Angewandte Wirtschaftspolitik	14
Einführung in die Makroökonomie	15
Einführung in die Mikroökonomie	16
Einführung in die Volkswirtschaftslehre	17
Geld und Währung	18
Geldpolitik.....	19
Grundlagen der Ökonometrie.....	20
International Trade: Theory and Policy.....	21
Introduction to Economic Growth.....	22
Lineare Algebra im wirtschaftswissenschaftlichen Kontext	23
Multidisciplinary Perspectives of Sustainability.....	24
Ökonometrie – Vertiefung.....	25
Ökonomie der Europäischen Integration	26
Ökonomische Theorie der Politik.....	27

Ökonomische Ungleichheit	28
Rechtfertigung der Staatstätigkeit	29
Strategie und Wettbewerb	30
Umweltökonomie	31
3. Core subject: International Law	32
Aktuelle Fragen des Völkerrechts.....	32
Asyl- und Aufenthaltsrecht.....	33
Besonderes Völkerrecht	34
Current Issues in International Law	35
Humanitäres Völkerrecht	36
International Economic Law.....	37
Internationale Rechtsprechung.....	38
Internationaler Menschenrechtsschutz	39
Introduction to European Union Law	40
Introduction to Public International Law	41
Recht der Internationalen Organisationen	42
4. Supplementary qualifications.....	43
Deskriptive Statistik für Sozialwissenschaftler	43
Grundlagen der Kommunikationsforschung.....	44
Induktive Statistik für Sozialwissenschaftler	45
Sozialwissenschaftliche Ergänzung.....	46
5. Language training.....	48
English Academic Writing and International Negotiations	48
Einführung in die Berufs- und Wissenschaftssprache Französisch: Textarbeit und mündliche Kommunikation.....	49
Einführung in die Berufs-, Wissenschafts- und Rechtssprache Französisch.....	50
Akademisches Schreiben Französisch	51
Internationales Verhandeln Französisch	52
Einführung in die Berufs- und Wissenschaftssprache Spanisch: Textarbeit und mündliche Kommunikation.....	53
Einführung in die Berufs-, Wissenschafts- und Rechtssprache Spanisch	54
Akademisches Schreiben Spanisch	55
Internationales Verhandeln Spanisch	56
Elementarstufe Russisch	57

Erweiterung Elementarstufe Russisch	58
Aufbaustufe Russisch	59
Erweiterung Mittelstufe Russisch.....	60
Berufs- und Fachsprache Russisch	61
Elementarstufe Japanisch.....	62
Erweiterung Elementarstufe Japanisch.....	63
Aufbaustufe Japanisch.....	64
Mittelstufe Japanisch	65
Erweiterung Mittelstufe Japanisch	66
6. Additional language course offerings	67

1. Core subject: International Politics

Module number	Module name	Module coordinator
BA-IB-ATP	Aktuelle Themen der Internationalen Politik	Prof. Dr. Anna Holzscheiter intpol@mailbox.tu-dresden.de
Qualification goals	Upon completion of the module, students will have an in-depth theoretical and empirical understanding of a current political science topic in International Relations and will be able to develop their own analyses on this topic.	
Content	The module covers current theoretical and empirical topics in International Relations as a sub-discipline of political science.	
Teaching and Learning methods	The module comprises, at the student's discretion, either a lecture or seminar totaling 2 semester hours per week, as well as independent study. The courses must be selected from the catalog "Current Topics in International Politics" to the specified extent. This catalog, including the required assessments, will be announced at the beginning of the semester in the usual manner. The language of instruction varies depending on the event.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Introduction to International Relations.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a comprehensive assessment comprising 100 hours of work.	
Module frequency	The module is offered each semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	
Examples of courses: - Block seminar: "The Transnationalization of Nationalism? Right-Wing Populism in the 21st Century", Dr. Weisskircher - Seminar "Human Rights and its Critics", Prof. Dhawan - Independent research: "Qualitative Research Design for the Social Sciences", Dr. Ivan Bakalov - Block seminar "Demographic dynamics in border regions: Challenges for democracy", Stefanie Gerstenberger - Block seminar "Power in Word Politics", Dr. Ivan Bakalov - Seminar: "Scenarios, Counterfactuals, and Futurity in World Politics", Dr. Jochen Kleinschmidt		

Module number	Module name	Module coordinator
BA-IB-APAA	Außenpolitikanalyse	Prof. Dr. Anna Holzscheiter intpol@mailbox.tu-dresden.de
Qualification goals	Upon completion of this module, students will be familiar with various theoretical approaches to explaining and understanding foreign policy. They will be proficient in current and historical issues in foreign policy analysis and will be confident in independently, critically, and systematically engaging with the theory and empirical data of foreign policy.	
Content	The module covers the history, theories, and current and historical issues of foreign policy, including critical, feminist, and postcolonial theories of foreign policy.	
Teaching and Learning methods	2 hours of seminar, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Introduction to International Relations.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a comprehensive assessment comprising 100 hours of work.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	
Examples of courses: - Seminar “Foreign Policy Analysis”, Stefanie Gerstenberger		

Module number	Module name	Module coordinator
BA-IB-EIB	Einführung in die Internationalen Beziehungen	Prof. Dr. Anna Holzscheiter intpol@mailbox.tu-dresden.de
Qualification goals	Upon completion of the module, students will be familiar with the most important theories in International Relations. They will be able to apply fundamental theories and core concepts of International Relations to concrete empirical questions.	
Content	The module covers the most important theories of international relations, their historical and intellectual roots, and empirical problems of international relations, such as opportunities and limits of cooperation between states, determinants and effects of foreign policy, peacekeeping and conflict resolution at the regional and global level, or the influence of non-state actors on international politics.	
Teaching and Learning methods	2 hours of lectures, 2 hours of tutorials, 2 hours of seminars, self-study. The language of instruction is German.	
Prerequisites for participation	None.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a portfolio comprising 180 hours.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	300 hours, 10 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-MES	Einführung in die Methoden der Empirischen Sozialforschung	Prof. Dr. Natalja Menold Natalja.Menold@tu-dresden.de
Qualification goals	Upon completion of the module, students will possess fundamental knowledge of the methods, problems, and possibilities of empirical social research. They will be able to critically examine methodological approaches and identify and utilize suitable methods for simple application contexts.	
Content	The module covers the forms, aims and purposes of empirical social research, problems in concept formation and operationalization, and methods of data collection.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	None.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-EPTa	Einführung in die Politische Theorie	Prof. Dr. Nikita Dhawan sekretariat.poltheo@mailbox.tu-dresden.de
Qualification goals	Upon completion of the module, students will be familiar with the historical development of ideas, key concepts and questions of political theory, as well as modern political science theories. They will be able to classify this knowledge in a structured manner according to scientific principles.	
Content	The module covers key concepts, questions, and the historical development of ideas in political theory.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is English.	
Prerequisites for participation	None.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-EPS	Einführung in die Politischen Systeme	Prof. Dr. Marianne Kneuer sekretariat.polsys@mailbox.tu-dresden.de
Qualification goals	Upon completion of the module, students will possess fundamental knowledge of the comparative analysis of political systems. They will have basic insights into key structural features of political systems and will be able to organize their knowledge according to scientific principles.	
Content	The module covers fundamental theories of systems analysis, structures and institutions, actors and processes, as well as key aspects of state activity.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	None.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-GTEa	Geschichte, Theorie und aktuelle Fragen der Politik Europas	Prof. Dr. Anna Holzscheiter intpol@mailbox.tu-dresden.de
Qualification goals	Upon completion of the module, students will be familiar with fundamental questions of European integration and Europe's role in world politics. They will possess basic knowledge of the foundations and conditions of European integration, as well as the institutional structures of the European Union, including theories of European integration or European foreign and security policy, theories of political decision-making in multi-level systems, theories of regional integration and disintegration, particularly research on populism, and related topics.	
Content	The module covers different theories of European integration and Europe's role in the world, the institutional structure and main actors of the European Union, EU decision-making processes, its central policy areas and current problems.	
Teaching and Learning methods	2 hours of seminar, self-study. The language of instruction varies depending on the event.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Introduction to International Relations.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a comprehensive assessment comprising 100 hours of work .	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	
Examples of courses: - Seminar "History, Theories and Current Issues of European Politics", Kleinschmidt - Block seminar "Transatlantic Relations in Years of Crises and Elections", Friedrich Opitz (Opal: https://tud.link/dcbxsb) - Block seminar "Simulation concept for the European Union", Stefanie Gerstenberger		

Module number	Module name	Module coordinator
BA-IB-INOa	Internationale Organisationen	Prof. Dr. Anna Holzscheiter intpol@mailbox.tu-dresden.de
Qualification goals	Upon completion of this module, students will be familiar with the conditions under which international cooperation emerges and its consolidation (institutionalization) within the international system. They will understand how different theories explain institutionalized cooperation in the international system and what role these theories assign to international organizations and regimes. They will be able to apply this knowledge when examining empirical case studies.	
Content	The module covers theories of institutionalized cooperation in the international system and empirical applications of international organizations and regimes.	
Teaching and Learning methods	2 hours of seminar, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Introduction to International Relations.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a comprehensive assessment comprising 100 hours of work .	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

2. Core subject: International Economics

Module number	Module name	Module coordinator
BA-IB-AFG	Aktuelle Fragestellungen der Geldpolitik	Prof. Dr. Stefan Eichler stefan.eichler@tu-dresden.de
Qualification goals	The students are familiar with current issues in monetary policy, such as unconventional measures in times of financial crises, transparency and independence, and international monetary policy. They are able to analyze and discuss these issues using theoretical and empirical methods.	
Content	The module's content includes theoretical and empirical research contributions on current applied problems in monetary policy.	
Teaching and Learning methods	2 hours of seminar, self-study. The language of instruction is German.	
Prerequisites for participation	English language skills at the basic level of a high school diploma are required. Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a combined written assignment with a workload of 90 hours.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-WAN	Analysis im wirtschaftswissenschaftlichen Kontext	Director of the Institute for Mathematical Stochastics i.stochastik@tu-dresden.de
Qualification goals	The students know and master the basics of analysis- sis, for example in the topics of differentiation and integration as well as Linear differential equations, and their application to optimization problems. They are able to use these methods for mathematical- to be used in modeling and to solve economic problems Zen.	
Content	The module covers the fundamentals of analysis, in particular differential analysis. Derivation and integration as well as linear differential equations.	
Teaching and learning methods	2 hours of lectures, 2 hours of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	Mathematical skills at the basic course-Abitur level are developed. Provided.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a written paper. Duration: 90 minutes.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-AWP	Angewandte Wirtschaftspolitik	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	The students are familiar with current economic policy issues. They are able to analyze and discuss these issues using theoretical and empirical methods.	
Content	The module's content includes theoretical and empirical research contributions on current applied problems in economic policy.	
Teaching and Learning methods	2 hours of seminar, self-study. The language of instruction is German.	
Prerequisites for participation	English language skills at the basic level of a high school diploma are required. Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a combined written assignment with a workload of 90 hours.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-MAK	Einführung in die Makroökonomie	Prof. Dr. Stefan Eichler stefan.eichler@tu-dresden.de
Qualification goals	Upon completion of this module, students will be able to analyze macroeconomic relationships within the framework of models and interpret and graphically represent the results. They will be able to derive the macroeconomic consequences of changes in economic policy or exogenous conditions within the context of the models and explain them in practical terms.	
Content	The module covers the fundamentals of macroeconomic analysis. This includes national accounts, the interaction of supply and demand in goods and money markets in open and closed economies, the mechanisms of interaction between monetary and fiscal policy measures, and economic growth processes.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Introduction to Economics.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-MIK	Einführung in die Mikroökonomie	Prof. Dr. Christian Leßmann christian.lessmann@tu-dresden.de
Qualification goals	Upon completion of the module, students will be familiar with fundamental concepts of microeconomics. They will be able to understand and analyze the individual economic decisions of households and businesses and apply this knowledge to other contexts.	
Content	The module covers the fundamentals of household and production theory as well as welfare economics.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Introduction to Economics.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-VWL	Einführung in die Volkswirtschaftslehre	Prof. Dr. Marcel Thum marcel.thum@tu-dresden.de
Qualification goals	The students possess fundamental knowledge of economic concepts and methods. They recognize economic problems and are able to present them appropriately.	
Content	The module covers key economic terminology as well as fundamental micro- and macroeconomic problems and methods.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	None.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-GUWa	Geld und Währung	Prof. Dr. Stefan Eichler stefan.eichler@tu-dresden.de
Qualification goals	Upon completion of this module, students will possess fundamental knowledge of monetary economics. They will understand the economic role of the financial system as well as the basics of the money creation process, monetary policy, and the pricing of bonds and stocks, taking into account international economic interrelationships. They will be able to answer fundamental questions in monetary economics.	
Content	The module covers the fundamentals of the financial system and the role of money and interest rates. The focus is on international financial markets, monetary policy and inflation, as well as the basics of stock and bond pricing.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 60-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-GPO	Geldpolitik	Prof. Dr. Stefan Eichler stefan.eichler@tu-dresden.de
Qualification goals	Upon completion of this module, students will possess fundamental knowledge of monetary policy. They will understand the causes of inflation from both theoretical and empirical perspectives, as well as the measures taken by central banks to combat it. Students will recognize the role of the time inconsistency of monetary policy in the emergence of inflation. They will understand the influence of monetary policy decisions on financial markets and will be able to assess strategic changes in monetary policy, for example, regarding its independence and transparency, and evaluate their impact on the inflation rate.	
Content	The module covers the fundamentals of monetary policy. This includes the role of central banks, particularly the European Central Bank, their independence and transparency, the causes of inflation and how to combat it, the effects of monetary policy on interest rates, and pricing in financial markets.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-GÖK	Grundlagen der Ökonometrie	Prof. Dr. Bernhard Schipp econometrics@tu-dresden.de
Qualification goals	Upon completion of the module, students will be able to interpret basic econometric models. They will be able to apply these models to economic questions and interpret the results.	
Content	The module covers interval estimators and hypothesis tests, linear multiple regression models, hypothesis testing in multiple linear regression models, structural breaks and indicator variables, and forecasting models.	
Teaching and Learning methods	2 hours of lectures, 1 hour of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Inductive Statistics for Social Scientists.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-TRA	International Trade: Theory and Policy	Prof. Dr. Christian Leßmann christian.lessmann@tu-dresden.de
Qualification goals	Upon completion of the module, students will be familiar with traditional and modern theories of international trade. They will understand their mechanisms and implications and be able to independently apply them to issues in international trade.	
Content	The module covers traditional and more recent explanations for international trade flows, their characteristics, and their distributional and welfare effects. It examines various market structures and relevant instruments of international trade policy.	
Teaching and Learning methods	2 hours of lectures, 1 hour of exercises, self-study. The language of instruction is English.	
Prerequisites for participation	English language skills at the basic level of a high school diploma are required. Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-ECG	Introduction to Economic Growth	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	Upon completion of this module, students will understand the fundamentals of the theory and empirical evidence of economic growth and have an overview of the determinants of long-term economic growth processes. They will be able to analyze growth and income disparities between economies and communicate academic findings in English.	
Content	The module covers the mechanisms and applications of neoclassical and endogenous growth theories, growth accounting, technological progress, and external and internal determinants of economic development.	
Teaching and Learning methods	2 hours of lectures, 1 hour of tutorials, self-study. The language of instruction is English.	
Prerequisites for participation	English language skills at the basic level of a high school diploma are required. Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-WLA	Lineare Algebra im wirtschaftswissenschaftlichen Kontext	Director of the Institute for Mathematical Stochastics i.stochastik@tu-dresden.de
Qualification goals	The students know and master the basics of linea- Algebra, for example in the topics of vectors and matrices, so- such as linear systems of equations, and their application to optimization- problems. They are able to use these methods for mathematical- to be used in modeling and to solve economic problems Zen.	
Content	The module covers the fundamentals of linear algebra, in particular- special vectors and matrices as well as systems of linear equations.	
Teaching and learning methods	2 hours of lectures, 2 hours of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Analysis.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a written paper. Duration: 90 minutes.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-NXS	Multidisciplinary Perspectives of Sustainability	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	Upon completion of the module, students will have a deeper understanding of the concept of sustainability, how to address related challenges such as climate change, policy adaptation and governance, and the interdependencies between different sectors, disciplines, and dimensions of sustainability. They will be able to discuss sustainability issues from a holistic perspective.	
Content	The module covers current topics concerning the interrelationships between different environmental resources and the efficiency of water, soil and waste use (NEXUS approach).	
Teaching and Learning methods	2 hours of seminar, self-study. The language of instruction is English.	
Prerequisites for participation	English language skills at the high school graduation level are required.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a combined written assignment with a workload of 90 hours .	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-VÖK	Ökonometrie – Vertiefung	Prof. Dr. Bernhard Schipp econometrics@tu-dresden.de
Qualification goals	Students are proficient in the application and interpretation of basic econometric models. They can independently analyze the assumptions that are necessary for the correct application of econometric models, select the appropriate methodology and interpret the results	
Content	The module's content includes extensions of multiple linear regression. Topics: Autocorrelation, heteroscedasticity, multicollinearity, structural- model fractures and regression diagnostics.	
Teaching and learning methods	2 hours of lectures, 2 hours of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the modules Introduction to Economics, Analysis in an economic context, Linear algebra in an economic context, descriptive statistics, and Inductive statistics.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. For more than ten registered students, the module examination consists of a 90-minute written exam. For up to ten registered students, it consists of a 20-minute private oral examination; registered students will be notified of this in writing at the end of the registration period.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-ÖEI	Ökonomie der Europäischen Integration	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	Upon completion of the module, students will be familiar with the development of European economic integration. They will understand the determinants and problem areas of the European Economic and Monetary Union and will be able to take a well-founded economic stance on relevant current economic policy issues.	
Content	The module covers the institutions of the EU as well as the theory and policy of free trade agreements and single currency areas.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-ÖTP	Ökonomische Theorie der Politik	Prof. Dr. Marcel Thum marcel.thum@tu-dresden.de
Qualification goals	Upon completion of the module, students will understand the positive foundations of government intervention in economic processes. They will be familiar with the fundamental analytical concepts of political economy and will be able to apply these to real-world economic policy issues.	
Content	The module covers government intervention in economic policy from a positive perspective, as well as the motives of various political actors.	
Teaching and Learning methods	2 hours of lectures, 1 hour of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-ÖKU	Ökonomische Ungleichheit	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	Upon completion of the module, students will understand the fundamental determinants of income distribution. They will be familiar with the normative foundations and possibilities of distributionally motivated government intervention and will be able to classify and analyze fundamental distributional policy issues.	
Content	The module covers the basics of measuring income inequality and poverty, alternative approaches to explaining and evaluating functional and personal income distribution, and instruments of distribution policy.	
Teaching and Learning methods	2 hours of lectures, 1 hour of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-RST	Rechtfertigung der Staatstätigkeit	Prof. Dr. Marcel Thum marcel.thum@tu-dresden.de
Qualification goals	Upon completion of this module, students will be familiar with the normative foundations of government intervention in the economic process from an efficiency perspective. They will be able to analyze fundamental problems of allocative market failure as well as potential solutions. They will understand how to apply the theories presented to the context of economic policy discourse.	
Content	The module covers forms of allocative market failure from which a normative justification for government intervention in the economic process can be derived, as well as policy instruments for remedying or mitigating them.	
Teaching and Learning methods	2 hours of lectures, 1 hour of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the modules "Introduction to Microeconomics" and "Introduction to Macroeconomics".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-SUW	Strategie und Wettbewerb	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	Students understand the fundamentals of price and competition theory. They are able to explain the outcomes of market processes depending on the number and information level of market participants and possess a basic understanding of the analysis of strategic decision-making situations.	
Content	The module covers the fundamentals of monopolistic and monopsonistic pricing, oligopoly and monopolistic competition, game theory and asymmetric information.	
Teaching and Learning methods	2 hours of lectures, 1 hour of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Introduction to Economics.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-UÖK	Umweltökonomie	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	Upon completion of the module, students will understand the economic theoretical foundations of environmental problems and environmental policy. They will be familiar with various environmental economic instruments and will be able to analyze possibilities for preventing and adapting to global environmental changes.	
Content	The module covers the theory of externalities as well as the static and dynamic effects of various environmental economic instruments in a national and international context.	
Teaching and learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the modules Introduction to Microeconomics and Introduction to Macroeconomics.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

3. Core subject: International Law

Module number	Module name	Module coordinator
BA-IB-FVR	Aktuelle Fragen des Völkerrechts	Prof. Dr. Dr. Sabine Freifrau von Schorlemer eleonora.hummel@tu-dresden.de
Qualification goals	Upon completion of the module, students will possess in-depth knowledge of a current issue in international law. They will be able to analyze and evaluate the given situation from a legal perspective. They will understand different theoretical concepts and be able to develop their own reasoned opinion.	
Content	The module's content includes current issues in international law arising from specific developments in international relations.	
Teaching and Learning methods	2 hours of seminar, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Special International Law	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a written assignment comprising 100 hours of work .	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-RLC	Asyl- und Aufenthaltsrecht	Attorney Elena Bogdanzaliew elena.bogdanzaliev@tu-dresden.de
Qualification goals	Upon completion of the module, students will possess a They acquire in-depth expertise in the specialized field of migration law. Furthermore, they develop a wide range of cognitive and social skills as well as values that are important for legal advice in migration law, but also for their later professional life, their personal development, and society.	
Content	The module covers general administrative law, the history of refugee law, German and European asylum and residence law, as well as relevant aspects of administrative process and procedure law and administrative enforcement law.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is German.	
Prerequisites for participation	This module is aimed at students who wish to complete training as volunteer advisors in migration law within the framework of the Refugee Law Clinic Dresden. A basic interest in migration law and a willingness to provide voluntary advice after successful completion of the semester-spanning RLC training are required.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a graded written exam lasting 120 minutes .	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-BVR	Besonderes Völkerrecht	Prof. Dr. Dr. Sabine Freifrau von Schorlemer eleonora.hummel@tu-dresden.de
Qualification goals	Upon completion of this module, students will be familiar with the fundamentals of key areas of international law. They will be able to apply this knowledge to international legal scenarios and questions. They will be capable of critically analyzing legal issues within international law.	
Content	The module covers the most important specialized areas of international law, including in particular diplomatic and consular law, the law of the sea, space law, international environmental law and international criminal law.	
Teaching and Learning methods	2 hours of lectures, 2 hours of exercises, self-study. The language of instruction is English.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Introduction to Public International Law.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-CILa	Current Issues in International Law	Prof. Dr. Dominik Steiger lssteiger@mailbox.tu-dresden.de
Qualification goals	Upon completion of the module, students will possess knowledge in a current area of international law. They will be able to analyze and evaluate the given situation from a legal perspective. They will understand different theoretical concepts, be able to develop their own reasoned opinion, and be able to communicate expert findings in English.	
Content	The module covers current issues in international law, for example in the field of human rights.	
Teaching and Learning methods	2 hours of seminar, self-study. The language of instruction is English.	
Prerequisites for participation	English language skills at the high school graduation level. Students are expected to have acquired the skills covered in the module Special International Law.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a combined written assignment totaling 100 hours .	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-HVR	Humanitäres Völkerrecht	Prof. Dr. Dr. Sabine Freifrau von Schorlemer eleonora.hummel@tu-dresden.de
Qualification goals	Upon completion of this module, students will possess fundamental knowledge of international humanitarian law. They will be able to apply this knowledge to real-world cases and issues of international humanitarian law in armed conflicts. They will be able to critically analyze legal questions within international humanitarian law.	
Content	The module covers the legal foundations and validity of international humanitarian law, its principles, as well as questions of adherence to international humanitarian law and its enforcement.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is English.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Special International Law.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-IEL	International Economic Law	Prof. Dr. Dominik Steiger lssteiger@mailbox.tu-dresden.de
Qualification goals	Upon completion of the module, students will possess fundamental knowledge of international economic law. They will be able to provide well-founded opinions on legal issues concerning the cross-border exchange of goods and services.	
Content	The module covers world trade law and international investment protection law.	
Teaching and Learning methods	2 hours of lectures, 2 hours of exercises, self-study . The language of instruction is English.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Introduction to Public International Law.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam. The exam must be completed in English.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-IRE	Internationale Rechtsprechung	Prof. Dr. Dominik Steiger dominik.steiger@tu-dresden.de
Qualification goals	Upon completion of the module, students will possess a In-depth expertise in international law. In particular, they develop extensive knowledge of the various international adjudicative bodies and the significance of their jurisprudence for international law, as well as of a selection of legal questions raised in case law.	
Content	The module primarily covers decisions of international bodies (e.g., the International Court of Justice, the International Criminal Court, the European Court of Human Rights, and the Special Tribunals for the former Yugoslavia and Rwanda), but also decisions of national courts related to international law. This includes content on general international law (e.g., immunity, hierarchy and validity of international law, jus cogens, erga omnes obligations) and selected subfields of international law, including international criminal law, international humanitarian law, and the international human rights system, as well as content on the procedural law of the various international bodies.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is English.	
Prerequisites for participation	BA-IB-PIL and very good knowledge of English. This module is aimed at students who wish to delve deeper into international law and the function of international and national jurisprudence.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a graded written exam lasting 90 minutes .	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-IMS	Internationaler Menschenrechtsschutz	Prof. Dr. Dr. Sabine Freifrau von Schorlemer eleonora.hummel@tu-dresden.de
Qualification goals	Upon completion of the module, students will possess fundamental knowledge of universal and regional human rights protection. They will be able to apply this knowledge to real-world human rights cases and issues. They will be able to critically analyze legal questions concerning universal and regional human rights protection.	
Content	The module covers the development of universally valid human rights at the international level since the early 20th century and their controversies, possibilities and problems; the enforcement of human rights in the United Nations, differentiated according to the activities of political bodies, treaty bodies and judicial bodies, as well as the activities of European institutions for monitoring and enforcing human rights.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is English.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Special International Law.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-EUL	Introduction to European Union Law	Prof. Dr. Dominik Steiger lssteiger@mailbox.tu-dresden.de
Qualification goals	Upon completion of the module, students will be familiar with the fundamental rules and structures of European law. They will be able to apply these to European legal scenarios and issues. They will be capable of critically analyzing European legal questions.	
Content	The module covers topics such as the sources of EU law, the EU institutions, the EU's competences, the relationship between EU law and national law, and the TFEU's system of legal protection.	
Teaching and Learning methods	2 hours of lectures, 2 hours of exercises, self-study. The language of instruction is English.	
Prerequisites for participation	English language skills at the high school graduation level are required.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-PIL	Introduction to Public International Law	Prof. Dr. Dominik Steiger lssteiger@mailbox.tu-dresden.de
Qualification goals	Upon completion of the module, students will be familiar with the basic structures and rules of international law.	
Content	The module covers the topics, foundations, and sources of international law, as well as its relationship to constitutional law. This includes, among other things, legal sources and fundamental principles such as sovereign equality, the prohibition of intervention, state immunity, peaceful dispute settlement, state responsibility, and the prohibition of the use of force under international law, including its exceptions.	
Teaching and Learning methods	2 hours of lectures, 2 hours of exercises, self-study . The language of instruction is English.	
Prerequisites for participation	English language skills at the high school graduation level are required.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-RIO	Recht der Internationalen Organisationen	Prof. Dr. Dr. Sabine Freifrau von Schorlemer eleonora.hummel@tu-dresden.de
Qualification goals	Upon completion of the module, students will possess comprehensive knowledge of the legal foundations, competencies, and functioning of international organizations. They will understand the theory and practice of the United Nations, as well as the scope of action available to non-governmental organizations (NGOs), and will be able to identify and assess the need for and approaches to reform within the United Nations.	
Content	The module covers the tasks and functions of international organizations, forms of membership, rights and obligations of members, financing issues, decision-making processes and voting rules, jurisdictional disputes, liability issues, compliance with the law and the power to impose sanctions.	
Teaching and Learning methods	2 hours of lectures per week, self-study. The language of instruction is English.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module Special International Law.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

4. Supplementary qualifications

Module number	Module name	Module coordinator
BA-IB-DSS	Deskriptive Statistik für Sozialwissenschaftler	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	Upon completion of this module, students will be familiar with the fundamentals of descriptive statistics and probability theory. They will be able to describe empirical data and simple stochastic situations using appropriate methods and tools.	
Content	The module covers descriptive statistics, in particular data, data types and scales, uni- and bivariate distributions, statistical software such as R, SPSS, Excel and elementary probability theory, in particular events and probabilities as well as random variables and their distribution.	
Teaching and Learning methods	2 hours of lectures, 2 hours of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	None	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-GKF PHF-BA-KW-K1 (SLK-BA-KW-K1)	Grundlagen der Kommunikationsforschung	Study program coordinator (sven.engesser@tu-dresden.de)
Qualification goals	The students are able to understand the most important scientific concepts. Questions of communication and media studies to be addressed They know and understand the key concepts and Systems used by the empirical-social scientific community Communication research describes its objects. The students- They also possess basic knowledge and Techniques of scientific work.	
Content	The module's content includes basic concepts and in-depth explanations. communicative action, especially with regard to journalistic-schen media as well as key findings of media use, media in-research on posture and communication.	
Teaching and learning methods	2 hours of lectures, 2 hours of tutorials, self-study. The language of instruction is German.	
Prerequisites for participation	None	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of one of the assessments specified in the course catalog "Current Topics in International Politics" .	
Credit points and grades	Credit points are awarded when the module examination is passed. The module examination consists of a written paper. Duration: 60 minutes.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-ISS	Induktive Statistik für Sozialwissenschaftler	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	Upon completion of this module, students will be familiar with the fundamentals of inferential statistics. They will be able to select appropriate statistical methods for typical research questions, implement these methods using suitable software, and evaluate and interpret the results.	
Content	The module covers basic concepts of inferential statistics, interval estimation, and significance tests.	
Teaching and Learning methods	2 hours of lectures, 2 hours of exercises, self-study. The language of instruction is German.	
Prerequisites for participation	Students are expected to have acquired the skills covered in the module "Descriptive Statistics for Social Scientists".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute written exam.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-SWE	Sozialwissenschaftliche Ergänzung	Prof. Dr. Alexander Kemnitz alexander.kemnitz@tu-dresden.de
Qualification goals	Upon completion of the module, students possess supplementary knowledge and skills from related social science disciplines relevant to the international focus of the degree program. They are able to incorporate this knowledge into discussions of issues in international relations.	
Content	The module's content, chosen by the student, consists of topics with an international focus from social science disciplines, in particular history, sociology, communication studies and business administration.	
Teaching and Learning methods	The module comprises, at the student's discretion, lectures, exercises, and seminars totaling 2 semester hours per week, as well as self-study. The courses must be selected from the catalog of courses offered in the Social Science Supplement program. This catalog, including the required assessments and grade weightings, will be published at the beginning of the semester in the usual manner for the center. The language of instruction varies depending on the event.	
Prerequisites for participation	None.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of the assessments specified in the course catalog for supplementary social science courses .	
Credit points and grades	This module is worth 5 credit points. The module grade is calculated from the grades of the examination components, weighted according to the course catalog for supplementary social science courses.	
Module frequency	The module is offered each semester.	
workload	The total workload is 150 hours.	
Module duration	The module runs for the duration of one semester.	

Examples of courses:

- Lecture "Comparison of Political Systems", Erik Vollmann (Opal: <https://tud.link/76y1bx>)
- Lecture "The political system of the Federal Republic of Germany in comparison", Dr. Eichhorn
- Block seminar "The State and Democracy Theory of the Federal Constitutional Court", Prof. van Ooyen
- Block seminar "Critical Migration Theories: Exile and Political Autobiography", Leyla Sophie Gleißner
- Block seminar "Political Thinking: Modern Theories of Democracy", Dr. Schulze Wessel
- Seminar "Democracy and Memory", Prof. Arenhövel

- Seminar "The State of Emergency – The Political Paradigm of Modernity", Markus Markmeyer
- Lecture "System Comparison II: Autocracies", Prof. Backes

5. Language training

Module number	Module name	Module coordinator
BA-IB-EIR	English Academic Writing and International Negotiations	John Micozzi John.Micozzi@tudias.de
Qualification goals	Upon completion of the module, students will have consolidated and perfected their skills in effective written and oral communication, reaching a level of fluency and negotiation skills at level C1/C2 of the Common European Framework of Reference for Languages, with a subject-specific focus. Students will be able to express themselves in writing and orally at a sophisticated level in an international environment and will possess corresponding intercultural competence.	
Content	The module covers academic writing, in particular working with various types of texts such as business inquiries, project proposals, contracts, grant applications, project reports, application letters, as well as negotiation training/conference simulation based on case studies, taking cultural differences into account.	
Teaching and Learning methods	4 hours of language course, self-study. The language of instruction is English.	
Prerequisites for participation	English language skills at the high school graduation level are required.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 30-hour written assignment and a 30-minute language test.	
Credit points and grades	This module is worth 5 credit points. The module grade is calculated as the unweighted average of the grades from both assessments.	
Module frequency	The module is offered each winter semester.	
workload	The total workload is 150 hours.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-FR1	Einführung in die Berufs- und Wissenschaftssprache Französisch: Textarbeit und mündliche Kommunikation	Ute Meyer sz.ausbildung-pruefung@tu-dresden.de
Qualification goals	Upon completion of this module, students will possess the ability to communicate independently in French in a study- and professional context, both in written and oral form, at level B2+ of the Common European Framework of Reference for Languages. This includes understanding the main ideas of complex academic, subject-specific, and professional texts. Students will be able to express themselves clearly, in detail, and fluently in writing and orally on selected topics within their field of study in international contexts, using complex linguistic structures such as explanation and argumentation, and a broad general vocabulary as well as a limited subject-specific vocabulary. They will have mastered relevant communication techniques and also possess intercultural competence.	
Content	The module's content includes an introduction to professional and academic language, especially business language, reading and listening strategies, subject-specific and academic text work and discussions on the topic of studies and career, media for language acquisition, and subject-specific presentations/reports.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	French language skills at level B2 of the Common European Framework of Reference for Languages are required. If the corresponding entry level is not met, preparation can be achieved through self-study, for example, a language course – possibly after personal consultation.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 105-minute language test.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-FR2	Einführung in die Berufs-, Wissenschafts- und Rechtssprache Französisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of this module, students will be at level B2+ of the Common European Framework of Reference for Languages, demonstrating their ability to communicate effectively in French language and culture, particularly in academic and professional contexts. They will have mastered academic writing techniques and possess intercultural competence. Furthermore, students will acquire communicative competence in the field of law. They will have knowledge of the French legal system, its institutions and areas, and specific expressions used in French legal terminology. They will be able to understand legal texts accurately and express themselves on legal issues in French.	
Content	The module covers topics such as academic writing techniques, the application process, CVs, developing personal application strategies, the French legal system, legal institutions and areas, and working with legal texts.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	French language skills at level B2 of the Common European Framework of Reference for Languages are required. If the corresponding entry level is not met, preparation can be done through self-study – possibly after personal consultation.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 195-minute language test.	
Module frequency	The module is offered each academic year, starting in the summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module comprises two semesters.	

Module number	Module name	Module coordinator
BA-IB-FR3	Akademisches Schreiben Französisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of the module, students are able to communicate effectively in written French at level C1+ of the Common European Framework of Reference for Languages, with a subject-specific focus. They are able to express themselves appropriately in writing in an international environment and possess corresponding intercultural competence.	
Content	The module covers academic writing, in particular the composition of various text types such as commentaries and summaries.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	French language skills at level B2+ of the Common European Framework of Reference for Languages are required, as can be acquired in the modules Introduction to French as a professional and scientific language: Textual work and oral communication and Introduction to French as a professional, scientific and legal language.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a written assignment with a workload of 70 hours.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-FRA4	Internationales Verhandeln Französisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of the module, students are able to communicate effectively in French, both orally and in writing, by perfecting their four language skills: listening, speaking, reading, and writing. They achieve fluency at level C1+/C2 of the Common European Framework of Reference for Languages with a subject-specific focus. They are able to express themselves appropriately in writing and orally in an international environment and possess corresponding intercultural competence.	
Content	The module includes negotiation training/conference simulation as well as the preparation of conference documents, for example, contract draft, negotiation plan and minutes.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	French language skills at level C1+ of the Common European Framework of Reference for Languages are required, as can be acquired in the module Academic Writing French.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute language test and a 70-hour written assignment.	
Credit points and grades	This module is worth 5 credit points. The module grade is calculated as the unweighted average of the grades from the examinations.	
Module frequency	The module is offered each summer semester.	
workload	The total workload is 150 hours.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-ES1	Einführung in die Berufs- und Wissenschaftssprache Spanisch: Textarbeit und mündliche Kommunikation	Ute Meyer sz.ausbildung-pruefung@tu-dresden.de
Qualification goals	Upon completion of this module, students will possess the ability to communicate independently in Spanish in a study- and career-related written and oral manner at level B2+ of the Common European Framework of Reference for Languages. This includes understanding the main ideas of complex academic, subject-specific, and professional texts. Students will be able to express themselves clearly, in detail, and fluently in writing and orally on selected topics within their field of study in international contexts, using complex linguistic structures such as explanation and argumentation, and a broad general vocabulary as well as a limited subject-specific vocabulary. They will have mastered relevant communication techniques and also possess intercultural competence.	
Content	The module's content includes an introduction to professional and academic language, especially business language, reading and listening strategies, subject-specific and academic text work and discussions on the topic of studies and career, media for language acquisition, and subject-specific presentations/reports.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Spanish language skills at level B2 of the Common European Framework of Reference for Languages are required. If the corresponding entry level is not met, preparation can be done through self-study – possibly after personal consultation.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 105-minute language test.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-ES2	Einführung in die Berufs-, Wissenschafts- und Rechtssprache Spanisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of the module, students will be at level B2+ of the Common European Framework of Reference for Languages, enabling them to communicate effectively in Spanish language and culture, particularly in academic and professional contexts. They will have mastered academic writing techniques and possess intercultural competence. Furthermore, students will acquire communicative competence in the field of law. They will have knowledge of the Spanish legal system, its institutions and areas, and specific expressions used in Spanish legal terminology. They will be able to understand legal texts correctly and express themselves on legal issues in Spanish.	
Content	The module covers topics such as academic writing techniques, the application process, CVs, developing personal application strategies, the Spanish legal system, legal institutions and areas, and working with legal texts.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Spanish language skills at level B2 of the Common European Framework of Reference for Languages are required. If the corresponding entry level is not present, preparation can be done through self-study – possibly after personal consultation.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 195-minute language test.	
Module frequency	The module is offered each academic year, starting in the summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module comprises two semesters.	

Module number	Module name	Module coordinator
BA-IB-ES3	Akademisches Schreiben Spanisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of the module, students are able to communicate effectively in written Spanish at level C1+ of the Common European Framework of Reference for Languages, with a subject-specific focus. They are able to express themselves appropriately in writing in an international environment and possess corresponding intercultural competence.	
Content	The module covers academic writing, in particular the composition of various text types such as commentaries and summaries.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Spanish language skills at level B2+ of the Common European Framework of Reference for Languages are required, as can be acquired in the modules Introduction to Professional and Academic Spanish: Textual Work and Oral Communication and Introduction to Professional, Academic and Legal Spanish.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a written assignment with a workload of 70 hours.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-ES4	Internationales Verhandeln Spanisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of the module, students are able to communicate effectively in Spanish, both in writing and orally, by perfecting their four language skills to a level of fluency equivalent to C1+/C2 of the Common European Framework of Reference for Languages, with a subject-specific focus. They are able to express themselves appropriately in writing and orally in an international environment and possess corresponding intercultural competence.	
Content	The module includes negotiation training/conference simulation as well as the development of conference documents, such as contract drafts, negotiation plans and minutes.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Spanish language skills at level C1+ of the Common European Framework of Reference for Languages are required, as can be acquired in the Academic Writing Spanish module.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute language test and a 70-hour written assignment.	
Credit points and grades	This module is worth 5 credit points. The module grade is calculated as the unweighted average of the grades from the examinations.	
Module frequency	The module is offered each summer semester.	
workload	The total workload is 150 hours.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-RU1	Elementarstufe Russisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of the module, students will possess basic communicative competence in Russian at level A1 of the Common European Framework of Reference for Languages. They will be able to handle very simple communication situations in the foreign language at an elementary level.	
Content	The module covers the basics of phonetics, vocabulary, grammar and syntax, reading and listening comprehension, speaking and writing, as well as intercultural communication.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	None.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute language test.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-RU2	Erweiterung Elementarstufe Russisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of the module, students will possess basic communicative competence in Russian at level A2 of the Common European Framework of Reference for Languages. This includes fundamental knowledge of phonetics, vocabulary, grammar, and syntax, as well as basic skills in reading and listening comprehension, speaking and writing, and intercultural communication. They will be able to handle important, simple communication situations in the foreign language at an elementary level.	
Content	The module covers basic vocabulary related to origin and education, fundamentals of grammar, elementary oral communication in everyday situations and in the university setting, relevant reading and listening strategies, and fundamentals of written communication.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Russian language skills at level A1 of the Common European Framework of Reference for Languages are required, as can be acquired in the Elementary Level Russian module.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute language test.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-RU3	Aufbaustufe Russisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of the module, students possess basic communicative competence in Russian at level A2+ of the Common European Framework of Reference for Languages. Students demonstrate well-developed communicative and grammatical foundations. They are able to communicate in simple, routine situations and are proficient in essential forms of written communication used in everyday life and academic settings.	
Content	The module covers vocabulary and grammar, strategies for improving reading and listening comprehension, understanding short texts such as emails and letters from friends or colleagues, communication in simple routine situations from everyday life and studies, expressing and justifying one's own opinion in a simple way, and the basic description of events, presentation of past actions and personal experiences.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Russian language skills at level A2 of the Common European Framework of Reference for Languages are required, as can be acquired in the module Extension Elementary Level Russian.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 105-minute language test.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-RU4	Erweiterung Mittelstufe Russisch	Ute Meyer sz.ausbildung-pruefung@ tu-dresden.de
Qualification goals	Upon completion of this module, students will possess advanced communicative language skills in Russian at level B1 of the Common European Framework of Reference for Languages. They will be proficient in written and oral communication in standard situations. They will be able to handle essential forms of written communication and conversational situations from everyday life and academic settings. Furthermore, they will be prepared for a period of study or an internship abroad.	
Content	The module's content includes vocabulary and grammar, reading and listening comprehension using selected text types of varying length and complexity, oral communication techniques including summarizing and formulating evaluative and argumentative statements, describing facts, and writing simple official documents.	
Teaching and Learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Russian language skills at level A2+ of the Common European Framework of Reference for Languages are required, as can be acquired in the Advanced Russian module.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 105-minute language test.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-RU5	Berufs- und Fachsprache Russisch	Ute Meyer ute.meyer@tu-dresden.de
Qualification goals	Upon completion of this module, students will possess the ability to communicate independently in Russian in a professional context, both written and oral, at level B2 of the Common European Framework of Reference for Languages. This includes understanding the main ideas of complex subject-specific and professional texts. Students will be able to express themselves clearly and fluently in writing and orally, using complex linguistic structures, on selected topics within their field of expertise in international contexts, employing a variety of strategies to ensure comprehension. They will have mastered relevant interdisciplinary and action-oriented communication techniques and will also possess intercultural competence.	
Content	The module covers the basics of business communication, the simulation of job-specific communication scenarios, the development of written communication skills, and job application training.	
Teaching and learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Russian language skills at level B1 of the Common European Framework of Reference for Languages are required, as can be acquired in the module "Extension Intermediate Level Russian".	
Usability	This module is an elective module in the Bachelor's degree program in International Relations, with Russian as the elective language.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 150-minute language test.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-JP1	Elementarstufe Japanisch	Ute Meyer ute.meyer@tu-dresden.de
Qualification goals	Upon completion of the module, students will possess basic language skills at level A1. They will have mastered a basic vocabulary of spoken Japanese and be able to write Hiragana. They will be able to understand simple and short texts about everyday life and their university environment in Hiragana, Katakana, and a few Kanji, express themselves using simple phrases about their surroundings, and answer simple questions about them appropriately.	
Content	The module's content includes very simple texts and audio texts on everyday situations, especially in a university setting, elementary oral and written text production based on Hiragana and a few Kanji, interaction on this topic, the development of relevant reading and listening strategies, the development of simple grammatical structures and an appropriate vocabulary, as well as exercises for automation in various work formats and with different media.	
Teaching and learning methods	4 hours of language course, self-study.	
Prerequisites for participation	No.	
Usability	This module is an elective module in the Bachelor's degree program in International Relations, with Japanese as the elective language. It fulfills the Prerequisites for participation for the module "Advanced Elementary Level Japanese".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute language test.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-JP2	Erweiterung Elementarstufe Japanisch	Ute Meyer ute.meyer@tu-dresden.de
Qualification goals	Upon completion of the module, students possess basic communicative competence at level A2.1. They have mastered an expanded basic vocabulary, with particular emphasis on writing katakana and other kanji. They can comprehend slowly and clearly articulated, concrete information on everyday topics; understand simple and short texts relating to everyday and professional experiences, syntactically, semantically, lexically, and morphologically, provided the vocabulary is limited to frequently occurring words; follow largely short, simple conversations and very simple presentations and respond appropriately when the topic is familiar; and describe their surroundings orally and in writing using simple phrases and sentences in the three writing systems.	
Content	The module includes simple texts on everyday situations/specific topics, especially in a university setting, simple presentations on these topics, development of relevant listening strategies as well as reading and writing strategies using the three writing systems, development of simple grammatical structures and an appropriate vocabulary, and exercises for automation in various work formats and with different media.	
Teaching and learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Japanese language skills at level A1 are required, as can be acquired in the Elementary Level Japanese module.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute language test.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-JP3	Aufbaustufe Japanisch	Ute Meyer ute.meyer@tu-dresden.de
Qualification goals	Upon completion of the module, students possess basic communicative language skills at level A2.2. They have mastered an expanded basic vocabulary, with particular attention to the three writing systems. They can understand clearly articulated, concrete information on everyday topics; read and comprehend simple texts relating to everyday and professional experiences, provided the vocabulary is limited to frequently occurring words; recognize different text types; communicate relatively easily in simple, routine situations and use connectors appropriately; describe their surroundings orally and in writing using simple phrases and sentences; and respond to a limited number of simple follow-up questions.	
Content	The module's content includes simple texts and audio texts on everyday situations, especially in a university setting, basic oral and written text production and interaction on this topic, the development of relevant listening strategies as well as reading and writing strategies using the three writing systems, the development of grammatical structures and an expanded vocabulary, and exercises for automation in various work formats and with different media.	
Teaching and learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Japanese language skills at level A2.1 are required, as can be acquired in the module "Extension Elementary Level Japanese".	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 165-minute language test.	
Module frequency	The module is offered each winter semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-JP4	Mittelstufe Japanisch	Ute Meyer ute.meyer@tu-dresden.de
Qualification goals	Upon completion of the module, students possess a more advanced level of basic communicative competence at level B1.1. They can understand the main points of listening texts on topics from everyday life and university life when spoken in clearly articulated standard language, largely understand simpler factual texts on topics related to their own interests and fields of study, express themselves orally and in writing in more detail and coherently on topics within their own areas of interest, write simple official documents, and master communication techniques such as summarizing, arguing and evaluating, as well as taking the initiative in conversations.	
Content	The module includes texts and audio texts on everyday situations, especially in the university environment, oral and written text production as well as interaction on this topic, the development of relevant reading and listening strategies, grammatical structures and an expanded vocabulary.	
Teaching and learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Japanese language skills at level A2.2 are required, as can be acquired in the Advanced Japanese module.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 90-minute language test.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

Module number	Module name	Module coordinator
BA-IB-JP5	Erweiterung Mittelstufe Japanisch	Ute Meyer ute.meyer@tu-dresden.de
Qualification goals	Upon completion of the module, students possess productive and receptive skills at level B1.2. They can understand the main points of spoken texts on topics from everyday life and university settings when spoken in standard language, understand factual texts on abstract and concrete topics related to their own interests and fields of study to a large extent, express themselves orally and in writing in more detail and coherently on past, present and future topics of their own interest, and write simple official documents.	
Content	The module includes texts and audio texts on everyday situations, especially in the university environment, oral text production and interaction on this topic, the writing of longer texts on topics in one's own university environment, as well as the development of grammatical structures and an expanded vocabulary.	
Teaching and learning methods	4 hours of language course, self-study.	
Prerequisites for participation	Japanese language skills at level B1.1 are required, as can be acquired in the Intermediate Japanese module.	
Usability	This module is an elective module in the Bachelor's degree program in International Relations, with Japanese as the elective language.	
Requirements for earning credit points	Credit points are awarded upon successful completion of the module examination. The module examination consists of a 75-minute language test.	
Module frequency	The module is offered each summer semester.	
Workload, credit points	150 hours, 5 credit points The module grade corresponds to the grade of the examination performance.	
Module duration	The module runs for the duration of one semester.	

6. Additional language course offerings

Students have the opportunity to take free language courses offered by TU Dresden, provided they possess the necessary knowledge for each course.

You can find an overview of the language courses offered [here](#).
