Research
In
Sustainability
Measurement and
Assessment

Fields of work

Four roles for Principal Investigators

Membership for Core Investigators

Core Investigators in PRISMA can become any natural person who lead or represent organizational structural units and have a thematic relation to the topics of PRISMA. In particular, members are

- a. Professors with their professorships at TU Dresden or **heads of structural units** or the entire organization of external institutions,
- b. Who **research and publish** in the field of sustainability assessment and policy,
- c. Who **are willing to involve themselves** and a contact person in the scientific and organizational work for PRISMA
- d. Who **are willing to actively raise funds** for PRISMA.

Impact of the centre

- Visibility of research
 - Synergies between the scientists
 - Effectiveness in the acquisition of third-party funds
 - Central contact point for external users
 - Joint public relations work
-
- Contribution to more sustainable development in the economy, society and politics
